

CULTURES OF DISSENT IN EASTERN EUROPE (1945-1989): RESEARCH APPROACHES IN THE DIGITAL HUMANITIES

22 June - 30 June 2020 – Budapest, Hungary

In cooperation with the New Exploratory Phase in Research on East European Cultures of Dissent (CA 16213), a COST Action funded by the Horizon 2020 Framework Programme of the European Union (nep4dissent.eu). Hosted by the Vera and Donald Blinken Open Society Archives, Budapest, Hungary

This 7-day seminar in digital humanities research methods is designed to expose a new generation of scholars in Cold War history and culture to methods of analysis and discovery involving computational techniques. Designed and run by NEP4DISSENT (New Exploratory Phase in Research on East European Cultures of Dissent, nep4dissent.eu), COST Action 16213, the inspiration for the course is built around the transfer of knowledge from technologists and data scientists to humanists. In the course of the 7-day session the participants will have hands-on experience with the entire life cycle of a digital humanities project design, leading to a single, tangible outcome in the form of a fully searchable and interactive dataset usable for art-curatorial purposes. Faculty are drawn from several disciplines and areas of specialization, in close cooperation with: the Blinken Open Society Archives (OSA); the History Department at CEU; the Department of Network and Data Science at CEU; the Department of Hungarian Literature and Cultural Studies at ELTE; the COURAGE H2020 project; the Center for Digital Humanities at the Institute of Literary Studies, Polish Academy of Sciences (CHC); CLARIN-Poland; the Center for Digital History at the University of Luxembourg (C2DH); and the LAB1100 in The Hague. The focus of this year's Cultures of Dissent SUN course will be conceptual mapping.
