Andrey Ivanov, UNDP Bratislava Regional Center, Bratislava, Slovakia

Faculty:

Jens Wandel, UNDP Bratislava Regional Center, Bratislava, Slovakia; Balazs Horvath, UNDP Bratislava Regional Center, Bratislava, Slovakia; Dan Dionisie, UNDP Bratislava Regional Center, Bratislava, Slovakia; Jaroslav Kling, UNDP Bratislava Regional Center, Bratislava, Slovakia; Ruben Mnatsakanian, CEU, Environmental Sciences and Policy Department, Budapest, Hungary; **Elena Danilova-Cross, UNDP Bratislava Regional Center, Bratislava, Slovakia**

Course Co-ordinator:

Mihail Peleah, UNDP Bratislava Regional Center, Bratislava, Slovakia

BRIEF COURSE DESCRIPTION

The course is a continuation of the similar endeavor conducted in 2006-2011. The course will generally maintain its initial structure addressing major areas of sustainable human development from both academic and policy angle. The experience so far suggests that this combination of theoretical exposure and practical experience makes it unique and interesting for participants not just from Europe and CIS but also beyond the region.

In 2012 the main purpose of the course will be to equip participants with a deep understanding of sustainable human development, MDGs and their policy relevance in respective countries in a creative, out-of-the-box manner. An important objective of the course is to expose its participants to different development paradigms, help understand the rationale behind them and understand their relevance in specific development contexts.

The course will consist of two modules: an on-line self-learning module (conducted in March-April 2012) and an in-residence course at CEU (July 2-13, 2012).

The self-learning module (Module 1) aims to familiarize participants with the main theoretical approaches in the area of sustainable human development. Its major objective will be to provide them with basic information and knowledge of sustainable human development and make possible an objective selection process for the in-residence module in Budapest. The in-residence module (Module 2) intends to go in-depth into practical aspects of development issues and will be a combination of advanced lectures, practical exercises and role-play.

Central European University's summer school (CEU SUN), established in 1996, is a program in English for graduate students, junior or post-doctoral researchers, teachers and professionals. It offers high-level, research-oriented, interdisciplinary academic courses as well as workshops on policy issues for professional development, taught by internationally renowned scholars and policy experts (including CEU faculty). Application from all over the world is encouraged. Financial aid is available.

Application deadline: February 15, 2012
