

CEU Summer course on THE QUALITY OF UNIVERSITY EDUCATION: HARMONIZING PURPOSES, PROCESSES AND OUTCOMES

29 June - 3 July 2020 – Budapest, Hungary

In cooperation with Yehuda Elkana Center for Higher Education, Central European University

Application deadline
14 February 2020

With the aim to promote institutional quality cultures, the European policy actors encourage higher education institutions to participate in European and national-level policy discussions on internal and external quality assurance systems, and support universities to develop internal quality assurance and enhancement mechanisms. Quality of university education is also considered to be one of the most important indicators of the development of any given national higher education system.

This Summer University course intends to help universities develop their own internal quality assurance and enhancement processes – including institutional self-studies, program-reviews, faculty and course evaluations, quality of management and student services – and coordinate their efforts to ensure that the outcomes and processes of university teaching meet local and international standards simultaneously.

The course will discuss the challenges of and best practices in fulfilling the many purposes of quality assurance at university level, such as accountability, efficiency, control, evaluation, accreditation, measurement and quality improvement.

For further academic information on the course and on eligibility criteria please visit the web site at

Central European University's summer school (CEU SUN), established in 1996, is a program in English for graduate students, junior or post-doctoral researchers, teachers and professionals. It offers high-level, research-oriented, interdisciplinary academic courses as well as workshops on policy issues for professional development, taught by internationally renowned scholars and policy experts (including CEU faculty).

CEU reserves the right to change course details.

Non-discrimination policy

Central European University does not discriminate on the basis of – including, but not limited to – race, color, national and ethnic origin, religion, gender or sexual orientation in administering its educational policies, admissions policies, scholarship and loan programs, and athletic and other school-administered programs.
